

Lethality Assessment Program

Lethality Assessment Program-Maryland Model (LAP) Maryland Network Against Domestic Violence

Introducing the Updated Lethality Screen

The LAP team is very excited to unveil modifications to the Lethality Screen for the first time in more than 12 years!

We've been working with jurisdictions across the country, our researchers, and our advisory council to improve the lethality screen. These changes are mostly cosmetic, but help make the tool both simpler and more gender inclusive, as well as make data collection more useful.

We're hosting a webinar to introduce the updated screen and discuss the changes in data collection.

Webinar: Introducing the New and Improved Lethality Screen

Thursday June 15, 2017
12:00pm PT / 3:00pm ET

The Lethality Assessment Program-Maryland Model, a project of the Maryland Network Against Domestic Violence
